SUMMARY

Aspiring Web Developer with a solid foundation in Data Structures and Algorithms, OOPs, modern web technologies and databases. Hands-on experience building responsive full-stack applications through academic projects, with a focus on writing clean code and solving practical problems. Now I am looking for an opportunity where I can contribute my skills.

TECHNICAL SKILLS

- **Programming Languages:** C, Java (OOP), Python, HTML, CSS, Bootstrap, Java Script
- **Database:** PostgreSQL, MySQL
- **Tools & Technologies:** Git, GitHub, VS Code, UI/UX Design
- **Core Concepts:** OOPs, Data Structures & Algorithms

PROJECTS

Algorithm Visualizer | *React.js, JavaScript (ES6+), HTML5, CSS3, Git*

- **Interactive DSA Visualizations:** Built an interactive full-stack application to visualize 5+ sorting algorithms (Bubble, Selection, Insertion, Merge, Quick) and searching algorithms (Linear, Binary) with step-by-step animations.
- **Dynamic Control Features:** Implemented real-time execution controls—including speed adjustment, pause, resume, reset, and custom input arrays—to enhance user engagement and learning.
- **Backend Integration:** Developed RESTful backend logic using Node.js and Express.js paired with SQLite database for structured data management and project scalability.
- **Modular UI/UX:** Designed a clean, responsive frontend using custom CSS and modular JavaScript (ES6+) following reusable component principles for future expansion (e.g., Graph/Tree algorithms).

Primary Tech Stack & Technologies Used:

- **Front-End Framework:** React.js (or Core JavaScript ES6+, HTML5, CSS3)
- **Styling & UI:** Tailwind CSS / Bootstrap / CSS3 Animations & Flexbox
- **State Management:** React Hooks (useState, useEffect, useRef) for controlling step-by-step execution states

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Academy of Technology (AOT), Hooghly | CGPA: 7.60 / 10.00 | Graduation: 2026

CERTIFICATIONS & TRAINING

Talentnext course on Data Science | Issued by Wipro | October, 2025

ACHIEVEMENTS & ACTIVITIES

Participated in the “UXOPIA” event 2024; developed a UI for a payment app and a business website.
